

## Aims and Scope

CALCO is a high-level, bi-annual conference formed by joining the forces and reputations of CMCS (the International Workshop on Coalgebraic Methods in Computer Science), and WADT (the Workshop on Algebraic Development Techniques). CALCO aims to bring together researchers and practitioners with interests in foundational aspects and both traditional and emerging uses of algebras and coalgebras in computer science. The study of algebra and coalgebra relates to the data, process and structural aspects of software systems.

# CALCO-Jnr 2011

Affiliated to CALCO 2011  
4th International Conference on Algebra and Coalgebra in Computer Science

**August 29, 2011, Winchester, UK**

2-page abstract submission: May 8, 2011

Author notification: May 30, 2011

Final version of abstract due: June 30, 2011

## CALCO 2011 Invited Speakers

Vincent Danos (UK)

Javier Esparza (Germany)

Philippa Gardner (UK)

Gopal Gupta (USA)

## CALCO-Jnr Programme Committee

Corina Cîrstea (Southampton), Magne Haveraaen (Bergen), John Power (Bath),  
Monika Seisenberger (chair, Swansea), Toby Wilkinson (Southampton)
