Aims and Scope

CALCO is a high-level, bi-annual conference formed by joining the forces and reputations of CMCS (the International Workshop on Coalgebraic Methods in Computer Science), and WADT (the Workshop on Algebraic Development Techniques). CALCO aims to bring together researchers and practitioners with interests in foundational aspects and both traditional and emerging uses of algebras and coalgebras in computer science. The study of algebra and coalgebra relates to the data, process and structural aspects of software systems.

CALCO-Tools 2011

Affiliated to CALCO 2011

4th International Conference on Algebra and Coalgebra in Computer Science

August 30 - September 2, 2011, Winchester, UK

Tools software and paper submissions: March 23, 2011

Author notification: April 20, 2011

Final version due: May18, 2011

CALCO 2011 Invited Speakers

Vincent Danos (UK)

Javier Esparza (Germany)

Philippa Gardner (UK)

Gopal Gupta (USA)

CALCO-Tools Programme Committee

Paolo Baldan (Padova), Luis Barbosa (Minho), Dorel Lucanu (chair, Iasi)

Milad Niqui (Amsterdam), Peter Olveczky (Oslo), Dirk Pattinson (London)
