It is clear that there has been some disruption of the text here, since the exact scheme of parallelism, which is characteristic of the rest of the song, has broken down, and, as it stands the meaning is quite obscure. However, it is possible to correct the text with some confidence, and restore both the parallelism and the clarity of meaning in the following manner:

- (1) Possibly in the process of copying, line 33 has been made identical to line 25, destroying its parallelism with line 31. When, however, the phrase CT^u ɔ̄ in line 33 is replaced by ʒⁿ 'C^u ɔ̄, parallel to the ʒⁿ ʙⁿ ɔ̄ in line 31, the balance is restored.
- (2) With line 33 amended in this way, CT^u ɔ̄ in line 34 also needs to be corrected to read, 'C^u ɔ̄.
- (3) The most serious disruption of the text is in line 32 from which the first five words are missing altogether. Fortunately the line can be easily reconstructed by reference to the parallel line 34. When the missing words are restored the line will read:

32 ɔ̄ ʝ_o ʙⁿ ɔ̄ C_n Δ⁻ ʔ^o Δ^u
 did see moon limit connector go to cover black

 ʔ^o Δ_{||} CΔ_{nc.}
