

Exploring the lost harbour of ancient Rome. Archaeology of Portus MOOC

Join a global community and experience the excitement of the cutting edge research taking place at this internationally recognised Roman site.

We invite you to join our unique, free, interactive six-week, online course with world-leading archaeologists from the University of Southampton.

You will chart a journey from the Imperial harbour to its connections across the Mediterranean, learning about archaeological discoveries and the many ways in which we use them to understand the history, landscape, buildings, and the people of this unique place. Largely filmed on location in Italy, the free course will also provide you with an insight into the wide range of digital technologies employed to record, analyse and present the site.

Course starts 19 May 2014
